- Recycling, water usage, excess packaging and climate change responses all above UK average but room for improvement, particularly in relation to making compromises to help the environment

Table Discussion

On your table, have a short discussion about the following questions:

1. What statistic surprised you the most?
2. What statistic(s) do you want to know more about?
3. Do you think there is any data missing from the data pack?

Your facilitator will write down your points and they will be fed back to the Community Partnership Board

Your Ideas

You should each have three 'post it' notes.

Write down – one per 'post it' please – **up to three** priorities for the area, including things that haven't already been covered.

Be as specific as possible about the change that you want to see and try to think about the Community Partnership area as a whole

Your Ideas

1. Agree on your table the 3 issues from your 'Ideas Wall' that you want to put forward to the other tables as your priorities
2. Agree who is going to feed these back

All ideas will be included in the final report from the workshop, so they won't be lost

You now have a short 10 minute break
so we can finalise the voting sheets for
the final stage of the workshop

East Suffolk
Community
Partnerships
Bringing ideas to life

- We now have a clear set of initial priorities for this Community Partnership
 - These will be the focus of the Community Partnership meetings which will start in January 2020
 - If other Community Partnership areas choose the same priority, we might want to work with them on joint projects
 - If you have any comments or questions about tonight or about Community Partnerships in general, please talk to your:
 - Community Partnership Chair – Carol Poulter
 - Communities Officer – Zoe Botten
 - Community Support Officer – Georgina Hirst
 - Nicole Rickard, Head of Communities
 - Luke Bennett, Partnership Manager

Thanks very much for coming along this evening and safe journey home
